EXPERIENCE

Full-Stack Developer at PLV | Valenzuela City, Philippines (Contract) **Jan 2024 – Jun 2024**

- Developed a full-stack web application designed for managing students' affairs and judicial cases at Pamantasan ng Lungsod ng Valenzuela.
- Configured physical servers to host both the database and the web application.
- Implemented user-friendly UI interfaces using ReactJS in conjunction with Tailwind CSS, enhancing user interaction and visual appeal.
- Performed manual testing on front-end components and conducted unit tests for back-end APIs, enhancing the reliability and stability of the codebase.
- Implemented CI/CD pipelines using GitHub Actions for automated and efficient deployment workflows.
- Assisted in testing and troubleshooting QA and test environments, actively identifying and resolving potential bugs to maintain product integrity and uphold quality standards.
- Played a crucial role in development and maintenance of security of the web application.

Junior Web Developer at APD | Makati City, Philippines (Contract) **Oct 2023 – Dec 2023**

- Continued to manage the BPI-AIA and AIA websites along with their external pages.
- Focused on optimizing front-end components, API requests using ReactJS framework and APIs using NodeJS framework, ensuring seamless data flow and system functionality.
- Developed user-friendly UI interfaces by combining ReactJS framework with Bootstrap framework, improving user interaction and visual appeal.
- Assisted and led the team in review of pull requests, offering valuable insights and feedback to elevate code quality and ensure maintainability.
- A leading force when it comes to implementing CI/CD pipelines using GitHub Actions for automated and efficient deployment workflows.
- Collaborating with nationally diverse teams, improving both soft skills and technical skills.

Web Development Intern at APD | Makati City, Philippines (Internship) **June 2023 – Oct 2023**

- Designed, maintained, and programmed BPI-AIA and AIA websites and their external pages.
- Utilized languages and technologies such as JavaScript, ReactJS, HTL, CRXDe, and Adobe Experience Manager in the development process for ease-of-use and to ensure creation of high-quality components.
- Created software documentation covering new issues and technologies being utilized.
- Worked closely with designers, project managers, and fellow developers to deliver high-quality code and components for clients.
- Nominated as Outstanding Developer of the Month 2x (June - July) (September - October).

Full Stack Developer (Freelance) | Valenzuela City, Philippines **Apr 2021 – June 2023**

- Developed robust, full-stack applications for diverse clients using ReactJS, React Native, NodeJS, ExpressJS and Tailwind CSS.
- Developed modern static web applications for clients in need of SPA using HTML, CSS, JavaScript.

EDUCATION **Aug 2020 - Aug 2024**

Bachelor of Science in Information Technology, Pamantasan ng Lungsod ng Valenzuela

- **Cum Laude** | Dean's Lister Awardee 2020-2024
